BARUT HOTELS | HISTORY

A LIFETIME DEVOTED TO TOURISM

Barut Hotels offer a corporate philosophy stemming from the tradition of being a family company, and with facilities in perfect harmony with nature, the hotels blend the sea, sun and entertainment with class.

Our story began in 1971 with our resort “Cennet”, a well hidden true paradise, which could only be reached via the sea route. The days, when travelling was an adventure in itself, went by quickly and with Acanthus, the tradition of plain perfection had been created already. Later, Hemera, Arum and Lara joined this fairy tale. Today, Barut consists of a giant bunch of happiness, which includes over 3000 professional employees and its new fortresses Andiz, Sorgun, Kemer, Akra, Fethiye, Barut B Suites and Sunwing Side Beach.

Who could calculate the size of our large family with over 230,000 guests every year and a repeat guest rate of almost half of that!

Barut Hotels develop and represent their friendship with the universe, gained with their compassion for people - environment - nature and history, with the quality of their sustainable services. It continues to write its own flamboyant history with the happiness of its guests. The only way to share this pride is to experience it with us, even if it is just for one season.

BARUT HOTELS: THE TRADEMARK REPRESENTING RESPECT FOR TRADITION

The summer season surveying (all dimensions of a structure), restitution (the chronological listing and documentation of all additions made to the original structure) and restoration (repair) works at Side's Nymphaeum (Monumental Fountain) have started.

The surveying, restoration and restitution works of the Monumental Fountain are undertaken with the contributions of Barut Hotels.

The restoration and restitution works at the Monumental Fountain, located at the entrance of Side, continue non-stop under the project "History to be Revealed". The works, carried out in all three branches, will reveal the spectacular architecture of the Roman Empire. The Monumental Fountain includes nine fountains. During the Roman Empire, these fountains at the entrance to the city symbolised the physical cleanliness as well as the purity of Side. In those days, people who entered the city washed their feet by walking through all 9 fountains. Once the works are finished the Roman entrance gate and the magnificent 9 fountains will be seen again.

Supporting the restoration works to the full, in order for Side to take its place in the global agenda, Barut Hotels has the mission of being a brand witness as a monument for honouring the past and tradition.

To draw attention to the deep-rooted history of Antalya, Barut Hotels organizes projects that bring classical music concerts in ancient cities together with historic art. Barut Hotels has a voluntary role in the promotion of Antalya; promotional videos prepared by the Group draw attention to the region.

Videos of the Antalya Old Town, Side Ancient City, Lybre Ancient City, Fethiye Kayaköy, the Manavgat River and its surroundings, Kemer Phaselis, Perge Ancient City, the Sorgun Forest and its surroundings and the Köprü River and its surroundings introduce the region's historical and natural beauty to visitors and residents alike.

BARUT HOTELS SUPPORTING THE CULTURE OF THE TOWN: "SIDE TOWN MUSEUM"

Barut Hotels continue to support cultural heritage. Established with the collaboration between Barut Hotels and Side Municipality, the Side Town Museum reunites the magical heritage of the past with today and carries it to tomorrow.

BARUT HOTELS | FLORA AND FAUNA

Barut Hotels take on the responsibility of looking after the Mediterranean with all its beauties.

Recognising the respect for the environment they live in as one of their main principles and choosing the names of some of their resorts inspired by the richness of this natural environment, Barut Hotels grow ornamental plants in their own greenhouses and share the beauty of these products with all their guests.

Procuring almost their whole need of citrus fruit specific to the Mediterranean from their orchards maintained by experts, Barut Hotels set up greenhouses to cultivate seasonal ornamental plants and to provide the required maintenance for foliage plants used for indoor landscaping. Some plant and tree types used for outdoor areas are also grown in these greenhouses.

Besides its contribution to the Mediterranean's unique nature, Barut Hotels, who respect nature and the natural life cycle, enjoy offering a "healthy holiday" with the organic flavours they present their guests.

As landlords of this extraordinary nature, we are proud to be able to offer all our guests health, freshness and flavour.

The professional team working at Barut Hotels will do their best for you to have a dream holiday.

SEA DAFFODIL

The sea daffodil (*Pancratium Maritimum*) belongs to the Amaryllidaceae family and is an endangered bulbous plant species which grows on coastal sand dunes. It is perennial, has wide, long and striped leaves, is approximately 40-45 cm high and has white flowers. The sea daffodil blooms between the months of August and October. This plant species, which grows on all coasts of the Mediterranean and the Black Sea, is endangered. It is a criminal offence to bring sea daffodils grown in Turkey out of the country. Barut Hotels are making all the necessary efforts for the preservation of the sea daffodil and to ensure the continuity of this species.

HEALTH AND SAFETY

Routine health and safety checks and inspections are regularly carried out by ISIS (International Safety Inspection Service) on a frequent basis with regard to the principle that everyone always needs hygiene.

CARETTA CARETTA

Barut Hotels protect the *caretta caretta* and their eggs, which they lay on Lara beaches, by providing information to their guests about this rare turtle species and guiding the guests accordingly.

CAT HOUSE

Barut Hotels has built cat houses to offer healthy living conditions for the animals living in the region. Many cats have been looked after (feeding and vaccinations) during this period and they still continue to be cared for in the cat houses.

GASTRONOMY
