

A full-page photograph of a young man and woman standing outdoors in a tropical setting. The woman, on the left, has long, wavy brown hair and is wearing a dark bikini top and bottom with a colorful patterned waistband. She is wearing a white, long-sleeved shirt tied in a knot at her waist. The man, on the right, has dark, curly hair and a beard, and is shirtless, wearing white swim trunks with a dark drawstring. Both are smiling broadly and looking towards the camera. A fine mist of water droplets is captured in mid-air around them, suggesting they have just been sprayed with water. The background is filled with lush green tropical foliage, including large palm fronds, under bright, natural sunlight.

BARUT HOTELS | HISTORY

A LIFETIME DEVOTED TO TOURISM

Barut Hotels offer a corporate philosophy stemming from the tradition of being a family company, and with facilities in perfect harmony with nature, the hotels blend the sea, sun and entertainment with class.

Our story began in 1971 with our resort “Cennet”, a well hidden true paradise, which could only be reached via the sea route. The days, when travelling was an adventure in itself, went by quickly and with Acanthus, the tradition of plain perfection had been created already.

Who could calculate the size of our large family with over 230,000 guests every year and a repeat guest rate of almost half of that!

Barut Hotels develop and represent their friendship with the universe, gained with their compassion for people - environment - nature and history, with the quality of their sustainable services. It continues to write its own flamboyant history with the happiness of its guests. The only way to share this pride is to experience it with us, even if it is just for one season.

BARUT HOTELS: THE TRADEMARK REPRESENTING RESPECT FOR TRADITION

The summer season surveying (all dimensions of a structure), restitution (the chronological listing and documentation of all additions made to the original structure) and restoration (repair) works at Side's Nymphaeum (Monumental Fountain) have started.

The surveying, restoration and restitution works of the Monumental Fountain are undertaken with the contributions of Barut Hotels.

The restoration and restitution works at the Monumental Fountain, located at the entrance of Side, continue non-stop under the project "History to be Revealed". The works, carried out in all three branches, will

reveal the spectacular architecture of the Roman Empire. The Monumental Fountain includes nine fountains. During the Roman Empire, these fountains at the entrance to the city symbolised the physical cleanliness as well as the purity of Side. In those days, people who entered the city washed their feet by walking through all 9 fountains. Once the works are finished the Roman entrance gate and the magnificent 9 fountains will be seen again.

Supporting the restoration works to the full, in order for Side to take its place in the global agenda, Barut Hotels has the mission of being a brand witness as a monument for honouring the past and tradition.

BARUT HOTELS SUPPORTING THE CULTURE OF THE TOWN: "SIDE TOWN MUSEUM"

Barut Hotels continue to support cultural heritage. Established with the collaboration between Barut Hotels and Side Municipality, the Side Town Museum reunites the magical heritage of the past with today and carries it to tomorrow.

BARUT HOTELS | FLORA AND FAUNA

Barut Hotels take on the responsibility of looking after the Mediterranean with all its beauties.

Nature Book

Nature Book

Recognising the respect for the environment they live in as one of their main principles and choosing the names of some of their resorts inspired by the richness of this natural environment, Barut Hotels grow ornamental plants in their own greenhouses and share the beauty of these products with all their guests.

Procuring almost their whole need of citrus fruit specific to the Mediterranean from their orchards maintained by experts, Barut Hotels set up greenhouses to cultivate seasonal ornamental plants and to provide the required maintenance for foliage plants used for indoor landscaping. Some plant and tree types used for outdoor areas are also grown in these greenhouses.

Besides its contribution to the Mediterranean's unique nature, Barut Hotels, who respect nature and the natural life cycle, enjoy offering a "healthy holiday" with the organic flavours they present their guests.

As landlords of this extraordinary nature, we are proud to be able to offer all our guests health, freshness and flavour.

The professional team working at Barut Hotels will do their best for you to have a dream holiday.

SEA DAFFODIL

The sea daffodil (*Pancratium Maritimum*) belongs to the Amaryllidaceae family and is an endangered bulbous plant species which grows on coastal sand dunes. It is perennial, has wide, long and striped leaves, is approximately 40-45 cm high and has white flowers. The sea daffodil blooms between the months of August and October. This plant species, which grows on all coasts of the Mediterranean and the Black Sea, is endangered. It is a criminal offence to bring sea daffodils grown in Turkey out of the country. Barut Hotels are making all the necessary efforts for the preservation of the sea daffodil and to ensure the continuity of this species.

HEALTH AND SAFETY

Routine health and safety checks and inspections are regularly carried out by ISIS (International Safety Inspection Service) on a frequent basis with regard to the principle that everyone always needs hygiene.

CARETTA CARETTA

Barut Hotels protect the *caretta caretta* and their eggs, which they lay on Lara beaches, by providing information to their guests about this rare turtle species and guiding the guests accordingly.

◀ Follow the Journey of Lara

CAT HOUSE

Barut Hotels provides healthy living conditions to the animals in the region with the cat houses it has built. During this period, it has provided many cats with medical care (feeding and vaccination), and still ensures their care in the cat houses.

BARUT HOTELS
CONTINUES TO INVEST
IN GREEN ENERGY

The “Green Transformation” carried out by Barut Hotels as part of the We Care All Sustainability Project is still in progress. Following Lara Barut Collection and Acanthus Cennet Barut Collection, which are the first green energy certified hotels in the Mediterranean Region in Türkiye, the investments continue at full steam. All the hotels of Barut Hotels are going to be powered by GREEN ENERGY in 2024.

With its strong infrastructure including all technological necessities and professional service, your meetings or special occasions turn into exciting and productive events.

MEETINGS AND EVENTS

Barut Hotels also reflect their structure, formed with a refined perception from entertainment to gastronomy, to art and culture.

In order to generate a systematic collection of all pieces of art presented for the pleasure of your eyes, Barut Hotels make their necessary steps.

In every corner of the resorts you may find a piece of art, which will be a delight for you to view. Zeynep Eren and her sculptures revealing the secrets of fruitful Anatolia, Akın Akbaygil, Canan Dağdelen, Osman Dinç, Ettore Sottsass,

Günnur Özsoy, Ebru Tabak and her lively designed ceramics, İsmet Doğan, Ömer Uluç, Bülent Erkmen, Mine Ertan, Murat Morova and Emre Senan are only some of the leading Turkish artists in painting and graphic arts, whose works can be found throughout our resorts.

Believing that tourism professionals should volunteer for the mission of being ambassadors for culture and art, Barut Hotels are determined to enrich their art collection with pieces from Turkish artists. From gastronomy to folk dancing and from art to literature, the aim is to welcome you to a wide selection of art works and to share a modest abstract of our art and culture with you in our resorts, which are an impeccable representation of the Mediterranean...

Art creates a pleasant ambience that uplifts the spirit and soothes the soul.

BARUT
ART

The sound of music and applause resounding in the Mediterranean sky are rising from Barut Hotels.

The classical music concerts as part of Antalya-Austrian Culture Days offer a musical feast with the contributions of Barut Hotels.

The Johan Strauss Ensemble took the stage with the conductorship of Vienna Stratos Quartet and Violinist Russel McGregor in classical music concerts. Organized amid the evocative atmospheres of Perge, the Ancient City of Side and Side Museum, classical music concerts within the scope of Austrian Culture Days bring a novel touch to the city, with different programs throughout the year.
